The sentences were: Gompers, one year; Mitchell, nine months, and Morrison, six months.

The opinion was rendered by Associate Justice Van Orsdell and concurred in by Justice Robb. Chief Justice Shepard dissented.

PEARY ACCEPTED AS POLE FINDER

Washington, Nov. 3.—Commander Robert E. Peary today received a gold medal from the National Geographic Society for having reached the north pole, the Board of Managers of the society having accepted unanimously the report of its subcommittee of scientists who had examined the explorer's records and photographs and found them to be corroborative of his claim that he had reached the pole.

The society adopted a resolution that the question of whether or not any explorer reached the north pole prior to 1909 shall be referred to a subcommittee of experts with authority to send for papers or make such journeys as may be necessary to inspect original records. This indicates that the society proposes as soon as possible to pass upon the records of Doctor Frederick A. Cook.

NEBRASKA STILL IN DOUBT

Lincoln, Neb., Nov. 6.—Figures complete on Supreme Court Justices from twenty-nine of the counties of the State show the following for the three fusion nominees: Dean, 39,191; Good, 41,720; Sullivan, 42,558.

For the Republicans: Barnes, 42,640; Fawcett, 42,544; Sedgwick 45,308.

The same counties two years ago gave Reese, Republican, 9,000, when he carried the State by 29,400. Basing the Republican loss for the remainder of the counties in the same proportion as for the twenty-nine indicates the election of two Republicans and one fusion Judge (Sullivan) but it is admitted the result is so close as to make estimates doubtful.

GAYNOR ELECTED BY 70,000

Tammany Candidates are Beaten. Three Supreme Court Judges May be Saved to Democrats

New York, Nov. 2.—An avalanche swept over Tammany Hall today. Judge William J. Gaynor, running at the head of the Democratic ticket, was elected by more than 70,000, but all of the Tammany nominees were swept to defeat.

At 1:30 this morning there seemed to be a chance that the three Supreme Court Judges in New York County would be saved in the wreck, but the Democrats were not much encouraged over the outlook. George G. Battle, nominee for District Attorney, after a valiant fight, went down before Charles S. Whitman by an estimated majority of 7,000.

Joseph Haag, Tammany nominee for Borough President of Manhattan, was bowled over by the fusion nominee, George McAneny, by approximately 6,000.

Christopher D. Sullivan, member of the Sullivan clan, and Tammany's prized nominee for Sheriff, was swept to defeat by John S. Shea, the Republican-Fusion nominee.

James J. Hagan, Tammany leader, and Tammany's nominee for County Clerk, was crushed by the Fusion nominee.

All along the line the pride and the pets of Tammany Hall were beaten by pluralities which, while small, were still staggering to the Tammany chief.

TWO KILLED BY EXPLOSION

Cause of Accident at Electrical Company's Mine Remains Unsolved

Webb City, Nov. 4.—What caused the explosion of two boxes of powder at the Electrical Company's mine, north of town, shortly before 11 o'clock yesterday morning, killing Floyd Newton, powder man; and Claude Harrison, his helper, will never be discovered. At all events the testimony of half a dozen of their fellow miners, who were with in from 25 to 150 feet of them when the accident occurred, but escaped unhurt, failed to establish even a theory at the inquest held later in the day.

Both men were so disfigured as to be unrecognizable, and Harrison's body was blown to atoms and scattered in all directions in the drift where the explosion took place.

Harrison was single. His home was Pounding Mill, Va., where he holds membership in the I. O. O. F. lodge. A brother who lives at No. 602 North Walker street is believed to be his only relative in this vicinity.

Newton's relatives, consisting of mother, two brothers and three sisters, live in and around Pittsburg, Kan. His mother and one of his sisters came here last night, and gave his age as 27. He had been married eight months. Harrison was 26 years of age.

Bert Robbins, who was at the Monett depot at about the same hour to take the train for Cassville, says the falling of leaves there attracted attention and indicated a cyclonic disturbance not far away.
